CHARTERS.

40th GEORGE III.

22nd March, 1800.

GEORGE THE THIRD, by the Grace of God, of Great Britain, France, and Ireland, King, Defender of the Faith, &c. To all to whom these Presents shall come, Whereas our Royal Predecessor, King Edward IV., by certain Letters Patent, under the Great Seal of England, bearing date the 24th Day of February, in the first Year of his Reign, did at the Supplication of the Freemen of the Mystery of Barbers of the City of London, using the Mystery or Faculty of Surgery, grant to them, among other Things, that the said Mystery, and all the Men of the same Mystery of the said City, should be one Body and Perpetual Community, and that two Principals of the same Commonalty, of the most expert Men in the Mystery of Surgery, might, with the assent of twelve or eight Persons at the least, of the same Community, every Year elect and make out of the Community, two Masters, or Governors, being the most expert in the Mystery of Surgery, to oversee, rule, and govern, the Mystery and Commonalty aforesaid.

Recital of the Letters Patent of 1st Edward 4th;

incorporating the Freemen of the Mystery of Barbers of the City of London.

And whereas by an Act of Parliament, made and passed in the 32d Year of the late King Henry VIII. intitled for Barbers and Surgeons, after reciting, that, within the City of London, there were then two several and distinct Companies of Surgeons, occupying and exercising the Faculty of Surgery, one Company called the Barbers of London, and the other Company called the Surgeons of London. It was thereby enacted, That the said two several and distinct Companies of Surgeons should from thenceforth be united, and made one intire and whole Body Corporate, and one Commonalty Perpetual, which at all times thereafter should be called by the Name of the Masters or Governors of the Mystery and Commonalty of the Barbers and Surgeons of London; and by the same Name to implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Suits.

Of the Act 32d Henry 8th.

By which the two Companies of Barbers of London, and Surgeons of London were united.

Of the Letters Patent of 5th Charles 1st.

And whereas, in and by certain Letters Patent, under the Great Seal of England, bearing Date the 15th Day of August, in the 5th Year of the Reign of His late Majesty, King Charles I., reciting that the Men of the same Companies enjoyed divers Liberties and Franchises within the City of London, the Suburbs and Liberties thereof, by virtue of divers Acts of Parliament, and divers Charters, and Letters Patent, His said Majesty did grant and confirm unto the said Masters and Governors of the Mystery and Commonalty aforesaid, and their Successors, all and singular the Manors, Messuages, Lands, Tenements, Customs, Liberties, Franchises, Immunities, Jurisdictions, and Hereditaments, whatsoever, which the Men of the said Companies then held, used, and enjoyed, by any lawful Means or Title whatsoever: And his said late Majesty did thereby give power to the said Corporation, to make annual Elections of Masters or Governors of the said Commonalty, whereof two to be Professors in the Art and Science of Surgery; and also to elect and constitute ten of the Freemen of the said Society to be Examiners of Surgeons in London.

Which confirmed to such united Company all the possessions, franchises and liberties which the said Company then held and enjoyed,

with power to make annual Elections of Masters or Governors whereof two to be Professors in Surgery; and to elect ten Freemen to be Examiners.

Recital of the Act of 18th of George 2d.

And whereas, by an Act of Parliament, made and passed in the 18th Year of the Reign of our late Royal Grandfather, King George II., intitled "An Act for making the Surgeons of London, and the Barbers of London, two separate and distinct Corporations," It was enacted, that the said Union and Incorporation of the Barbers and Surgeons of London, made and effected by the aforesaid Act of the 32d Year of King Henry VIII. should, from and after the 24th Day of June, 1745, be dissolved and declared void and of no effect; and that such of the Members of the said united Company who were Freemen of the said Company, and admitted and approved Surgeons, within the Rules of the said Company, and their Successors, should from thenceforth be made, and they were thereby made and constituted, a separate and distinct Body Corporate and Commonalty Perpetual, which at all times thereafter were to be called by the Name of Master, Governors and Commonalty of the Art and Science of Surgeons of London, and by the same Name might implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Actions and Suits, and take to them and their Successors, Lands, Tenements, Rents, or Hereditaments, not exceeding the yearly Value of £200 in the whole.

by which the Union of the two Companies was dissolved;

and which constituted a distinct Company of Surgeons, by the Name of "The Master, Governors, and Commonalty of the Art and Science of Surgeons of London."

Recital that such Corporation was dissolved.

And whereas, we are informed that the said Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of Lon-

don, hath become and now is dissolved: And whereas, it is of great consequence to the Commonweal of this Kingdom, that the Art and Science of Surgery should be duly promoted: And whereas, it appears to us, that the Establishment of a College of Surgeons will be expedient for the due promotion and encouragement of the Study and Practice of the said Art and Science, Now We, of our special Grace and mere Motion, and at the humble Petition of James Earle, Esquire, the late Master, and divers other Members of the aforesaid late Corporation of Surgeons; have willed, ordained, constituted, declared, given and granted, and by these Presents, for Us, Our Heirs, and Successors, do will, ordain, constitute, and declare, give and grant; unto the aforesaid James Earle, and unto all the Members of the said late Company or Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of London; having been admitted and approved Surgeons, within the Rules of the said Company; and also unto all such Persons, who upon, or since, the dissolution of the said Corporation, shall have obtained Letters Testimonial, under a Seal purporting to be the Seal of the said late dissolved Corporation, authorizing them to practise the Art and Science of Surgery; and they, from henceforth for ever hereafter, shall be and remain by virtue of these Presents, one Body Corporate and Politic; by the Name of The Royal College of Surgeons in London, and by the same Name shall and may have perpetual Succession, and a Common Seal; with power to break, alter, and make anew the said Seal, from time to time at their will and pleasure; and by the same Name shall and may implead, and be impleaded, before all manner of Justices, in all Courts, and in all manner of Actions and Suits; and shall be at all times for ever hereafter persons able and capable in Law to take, purchase, possess, hold, and enjoy, and shall and may take, purchase, possess, hold and enjoy, a Hall or Council-house, with its Appurtenances, situate within the Cities of London or Westminster, or within one Mile of either of them, for the use and purposes of the said College; and also any other Lands, Tenements, Rents, or Hereditaments, wheresoever situate, lying and being; not exceeding, together with the aforesaid Hall or Council-house, and its appurtenances, the yearly value of one thousand Pounds in the whole; without incurring any of the Penalties in any Statute of Mortmain, or any Thing, in any Statute of Mortmain, to the contrary notwithstanding.

That it is of great consequence that the Science of Surgery should be duly promoted,

and that a College will be expedient for the due encouragement thereof.

Therefore His Majesty was pleased to incorporate the Members of the late Company, and all such Persons who since the Dissolution thereof have obtained Letters Testimonial &c.

By the name of "The Royal College of Surgeons in London."

With perpetual succession and a common seal;

and power to hold and enjoy a Council-house within London or Westminster or one mile of either of them; and to possess lands and tenements, including such Council-House of the yearly value of £1000 in mortmain.

And it is Our further Will and Pleasure, that nothing in these Presents

Proviso,—That the City of Lon

don shall not have any jurisdiction over the College.

shall be construed to give the Corporation of the City of London any Power or Jurisdiction over the said College hereby established and incorporated;

Nor the Members of the College enjoy any franchise belonging to the Freemen of the City of London.

and that no Person, by virtue of these our Letters Patent, constituted or ordained, or hereafter to be admitted a Member of the said College, shall be thereby entitled to any Franchise belonging to the Freemen of the City of London.

The College to enjoy all other privileges and possessions by any former Acts or Letters Patent, given to, or otherwise acquired by, the late Company, not hereby altered, &c.

THE COUNCIL.

The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Midwifery and Dental Boards, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require. THE BOARD OF EXAMINERS IN MIDWIFERY.

The Board consists of four Members annually elected, viz.:—The Chairman, one of the Vice-Presidents of the College, and three other Members, who are required to be elected either from the Fellows or Members of the College, or from the Fellows or Licentiates of the Royal College of Physicians of London. The Board conducts the Examination of Candidates for the Licence in Midwifery. *There have not been any appointments made during the last six years, and the Examinations are suspended until further notice.*

BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of six Members elected by the Council for five years, viz.:—three Members of the Court of Examiners of the College, and three other persons skilled in Dental Surgery. The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College. During the year there have been two Meetings of the Board, and twenty-two Candidates have been examined, nineteen of whom obtained the Diploma.

THE SECRETARY'S REPORT.

In pursuance of the resolution of the Council of the 9th of December, 1880, by which it was determined

> "That the Annual Report of the President on the affairs of the College be discontinued; but that an abstract of the proceedings of the Council and of any documents presented to the Council, relating to matters not otherwise contained in the Calendar, be prepared by the Secretary and, subject to the approval of the President, be published annually in the Calendar of the College, and that such abstract be headed 'The Secretary's Report.'"

the following abstract has been prepared by me as my Report, viz.:—

At the Quarterly Meeting of the Council on the 8th of July, 1880, the President directed the attention of the Council to the Bill, then before Parliament, for the Amendment of the Vaccination Acts, the adoption of which would practically do away with compulsory vaccination; and a letter on the subject from the President of the Royal College of Physicians having been read, the Council adopted the following resolution, viz.:—

> "That the President and Vice-Presidents be appointed a deputation on behalf of this College, to accompany the President of the Royal College of Physicians and the President of the Royal Society in the proposed interview with the Prime Minister on the subject of the objections entertained to the passing of the 'Vaccination Acts Amendment' Bill, and that the President of the Royal College of Physicians be informed that in the opinion of the Council it will be most desirable that the President of the Local Government Board, who has charge of the Bill, should be present at the interview with the Premier."

At the Ordinary Meeting of the Council on the 5th of August, 1880, the following letter from Sir James Paget, Bart., reporting, as the repre-

sentative of the College, the proceedings of the General Medical Council was directed to be entered on the Minutes, viz. :—

"1 Harewood Place, Hanover Square, W.,
"August 3, 1880.

"My dear President,

"The Medical Council during the greater part of its recent Session was occupied in the consideration of the Preliminary Examinations to be passed by persons intending to enter the Medical Profession. The whole subject was thoroughly discussed and the Regulations agreed-to will, shortly, be sent to the College. They do not in any important respect differ from those which the College-Council has sanctioned for the examinations held under its direction by the College of Preceptors.

"A resolution was passed by the Medical Council that

> "'It is desirable that intending candidates for the Medical Profession should, before they enter on the purely medical curriculum, have been instructed and examined in the Rudiments of Natural Science—*Physical, Chemical, and Biological*, and that, in proportion as this can be done, the present Medical Curriculum and present Professional Examinations should be lightened of all such matters.'

"A Committee was appointed to consider and 'communicate....with the Licensing Bodies' on the means by which this purpose may best be obtained.

"The College-Council will, doubtless, consider favourably a plan which will secure for students more time for the study of anatomy and the other sciences which are in nearest connection with surgery.

"A resolution was moved in the Medical Council of which, if it could have been enforced, the effect would have been that, after the end of the present year, preliminary examinations conducted by or under the direction of Licensing Medical Authorities other than the Universities would 'not be regarded by the Council as satisfactory for the purposes of the Medical Act.' The resolution was supported by very few of the members of the Medical Council, and was withdrawn; partly, I believe, because it could be said that the College-Council had in contemplation the discontinuance of the examination by the College of Preceptors, so soon as it should be satisfied that the examinations held by the National Educational Bodies are sufficient in number and quality, and sufficiently accessible, for all persons desiring to study surgery.

"I beg leave to submit to the Council that this subject may justly claim its consideration at the earliest convenient time, with a view to decide whether, as the Registration of Students at the College was discontinued so soon as the Council was satisfied that the task would be duly fulfilled by the Medical Council, so now the College-Preliminary Examination may, after due notice, be discontinued.

"There is, I believe, no need for me to call the attention of the Council of the College to any other part of the proceedings of the Medical Council.

"I am, Yours very faithfully,
"James Paget."

"*The President,*
"*Royal College of Surgeons of England.*"

At this Meeting the President reported, on behalf of himself and the Vice-Presidents, that, in pursuance of the Resolution of the Council on the

8th ultimo, they had accompanied the President of the Royal College of Physicians, and the President of the Royal Society, and other Members of the two Institutions, in their visit to the President of the Local Government Board, and had, in their interview with Mr. Dodson, expressed to him the serious objections entertained by the Council to the passing by Parliament of the "Vaccination Acts Amendment" Bill.

At the Quarterly Meeting of the Council on the 21st of October, 1880, copies of the "Amended Recommendations on Education and Examination and Regulations in regard to the Registration of Medical Students," adopted by the General Medical Council, were laid before the Council.

At the Ordinary Meeting of the Council on the 11th of November, 1880, a letter, dated the 9th of November, was read from Mr. R. C. Dryland, Solicitor, enclosing an Extract of the Will of the late Mrs. Sally Hall Bradshaw, of Reading, of the Bequest to this College of £1000 £3 per cent. Consols, the income thereof to be expended upon a lecture in Surgery, to be called "The Bradshaw Lecture," to be delivered annually on the 16th of August, the date of the death of her late husband Dr. William Wood Bradshaw; and it was resolved

> "That the Bequest be accepted, and that it be referred to the President and Vice-Presidents to take such steps as they may consider advisable for giving legal effect to the same, reporting thereon to the Council."

At the same Meeting of the Council the following resolution, on the motion of Sir James Paget, Bart., was carried and referred to a Committee to consider the same and report thereon to the Council, viz.:—

> "That the Council, having assented to the recommendation of the General Medical Council, that 'it is desirable that the Examinations in General Education should be left to the Universities and to such other Bodies engaged in general Education and Examination as may from time to time be approved by this Council, &c.,' and being satisfied that such Examinations are now sufficiently numerous and accessible to all persons desirous of studying Surgery, and will be duly under the supervision of the General Medical Council, give notice that the Examinations held, with their authority, by the College of Preceptors will cease to be held on and after a date to be determined upon by the Council."

At the Ordinary Meeting of the Council on the 9th of December, 1880, the Minutes of the last Meeting were confirmed, with the addition of the following words to the last Resolution of the Council, viz. after the word "Resolution" the words "and the Regulations relating to the several "Preliminary Examinations recognized by this College whether for the

"Membership or Fellowship;" and that the said Resolution to accordingly read as follows, viz.: "That it be referred to a Committee to consider the "foregoing Resolution and the Regulations relating to the several Prelimi- "nary Examinations recognized by this College whether for the Member- "ship or Fellowship, and to report thereon to the Council."

At this Meeting a letter of the 11th of November was read from Dr. Haldane, Chairman of a Committee of the General Medical Council, requesting the opinion of this College, in the form of certain questions proposed by him, on the desirability of Candidates for the Medical Profession being required, before they enter on the purely Medical curriculum, to have been instructed and examined in the rudiments of Natural Science—*Physical, Chemical, and Biological*; and it was resolved:

> "That such letter be referred to the Committee on Preliminary Examinations to consider the same, and to report thereon to the Council."

At the Quarterly Meeting of the Council on the 13th of January, 1881, the following reports from the Committee on the necessary arrangements for the institution of additional Examinations for the Diplomas of Member and of Fellow of the College, and from the Committee on Preliminary Examinations respectively, were approved, adopted, and directed to be entered on the Minutes, viz.:—

Second Report, dated the 6th of January, 1881, of the Committee on the necessary arrangements for the institution of additional Examinations for the Diplomas of Member and of Fellow of the College.

The President.

The Vice-Presidents.

The Committee appointed on the 13th of November, 1879, to consider and report to the Council

> (1) On "the necessary arrangements to be made for the institution of Examinations in Chemistry, Materia Medica, Pharmacy, and Midwifery, to be passed by all Candidates (not otherwise qualified in these subjects) for the Membership and Fellowship of the College;" and
>
> (2) "To advise the Council as to the Degrees, Diplomas, or Certificates which should be accepted as exempting Candidates from the necessity of passing the Examinations in these subjects,"

have presented to the Council their First Report, dated the 10th of May, 1880, in which they recommended to the Council that, for the reasons stated therein, notice should be given to the several Medical Authorities concerned in "The Conjoint

Scheme" of the intention of this College to withdraw from that Scheme; which recommendation, in the following modified form, was adopted by the Council on the 10th of June last, viz. that, "in view of the uncertainty which prevails as to the compulsory establishment of a Conjoint Scheme in each division of the United Kingdom, the Council give notice to the several Medical Authorities in England of their intention, whether alone or in conjunction with other Bodies, to make arrangements for the institution of a complete Examination to be passed by all Candidates for the Diplomas of Member and Fellow of the College," and having further considered the original questions, together with the following additional matters referred to them by the Council on the 13th of May and the 9th of December last respectively,—

(*a*) "That, without waiting for the confirmation of the Minutes, the Committee be authorized and requested to enter into communication with the English Medical Corporations to give effect to the purposes suggested in the Report;" and

(*b*) "That it be referred to the Committee on the arrangements for further Examinations for the Diplomas of Member and Fellow of the College to take into consideration the curricula of professional education for those Diplomas, especially in reference to the inequalities existing in them as compared with the curricula of other Institutions, and to report thereon to the Council;"

have adopted the following as their Second Report to the Council, viz.:—

The Committee report that, in pursuance of the resolution of the Council of the 13th of May last, the President, at the request of the Committee, addressed a letter to the President of the Royal College of Physicians of London, inviting him and other delegates from his College to meet the Committee and confer on the practicability of making arrangements for a joint Examination for qualification to practise Medicine, Surgery, and Midwifery; that the invitation was declined on the ground that the Royal College of Physicians, being bound by the terms of the Conjoint Scheme, dated the 1st of May, 1877, could not take part in the formation of any other Examining Board until after the expiration of five years from the 1st of October, 1877, the shortest time fixed by the Scheme for its duration; and that the President, on behalf of the Committee, pointed out to the President of the Royal College of Physicians that the interpretation thus put upon Section XII. of the Scheme was totally at variance from that which is, and always has been, held by this College, it being quite clear that the said Section is binding on the several Medical Authorities only on the condition that the Conjoint Scheme has come into actual force.

The Committee, having thus failed in their endeavours to bring about a conference with the Royal College of Physicians with a view to co-operation between the two Colleges for the establishment of a joint Examination, deemed it undesirable to invite the remaining English Medical Corporation to take part in such co-operation, and entered at once into the consideration of the arrangements for the institution of further Examinations for the Membership and Fellowship.

The Committee propose to reserve to a future Report any recommendations on the institution of Examinations in Chemistry, Materia Medica, Medical Botany, and Pharmacy; but in regard to Medicine and Midwifery the Committee recommend to the Council the adoption of the following Resolutions, viz.:—

I. That there be four instead of two Examiners in Medicine.

II. That the Examination on the Principles and Practice of Medicine, both written and *viva voce*, be extended, and do include the Examination of Patients.

III. That, from and after the 1st of January, 1882, every Candidate presenting himself for the final Examination, whether for the Diploma of Member or of Fellow, be required to pass an Examination in Midwifery, unless he shall possess a recognized qualification in Midwifery, or, before obtaining the Diploma, shall produce a certificate of having passed the necessary Examinations entitling him to a recognized qualification in Midwifery.

IV. That there be two Examiners in Midwifery.

V. That the Examination in Midwifery be partly written and partly *viva voce*.

VI. That Candidates who have passed the Examination in Midwifery for the Membership, or any Examination recognized as equivalent thereto, be not required to undergo any further Examination in Midwifery for the Fellowship.

VII. That the following Degrees, Diplomas, or Licences be respectively recognized as exempting a Candidate from the necessity of passing the Examination in Medicine or in Midwifery, as the case may be, whether for the Membership or Fellowship, viz.:—

A. Any Degree, Diploma, or Licence in Medicine or Midwifery registrable under the Medical Act of 1858 as a legal qualification to practise Medicine or Midwifery, as the case may be.

B. Any Degree, Diploma, or Licence in Medicine or Midwifery of a Colonial, Indian, or Foreign University which the Council may, on special application, consider to be sufficient to exempt a Candidate from passing the Examinations in Medicine and Midwifery, or in either of them.

The Committee have to report that, the extended Examination in Medicine and the institution of the Examination in Midwifery will be attended by an increased expenditure which, so far as can at present be estimated, may amount to £450 per annum.

The Committee reserve to a future Report the result of their deliberations with respect to the curricula of Professional education of this College as compared with those of other Institutions.

THE PRESIDENT.
THE VICE-PRESIDENTS.

The Committee, appointed by the Council on the 9th of December, 1880, to consider and report on the following questions:—

(1) The date at which effect should be given to the resolution of the Council on the 11th of November, 1880, by which it was agreed that the Preliminary Examinations for the Membership and Fellowship of the College, at present

conducted by the College of Preceptors under the authority of the College, should cease after a date to be determined by the Council;

(2) The Regulations relating to the several Preliminary Examinations recognized by this College whether for the Membership or Fellowship; and

(3) The answers to be given to the inquiries contained in Dr. Haldane's communication of the 11th of November, 1880, with respect to the desirability of Candidates for the Medical Profession being required, before they enter on the purely Medical Curriculum, to have been instructed and examined in the rudiments of Natural Science—*Physical, Chemical, and Biological*;

have held two Meetings, and have adopted the following Report to the Council on the first two questions, reserving to a further Report the subjects embraced in the communication from Dr. Haldane.

The Committee, in reference to the first question submitted to them, recommend to the Council that the Preliminary Examinations for the Diplomas of Member and of Fellow of the College, at present conducted by the College of Preceptors under the authority of the College, should cease from and after the 31st of December, 1881, and that, in communicating this decision to the General Medical Council, in accordance with the terms of the resolution of the Council of the 11th of November, 1880, it should be intimated that the giving up of the College Preliminary Examinations renders it in the highest degree desirable that the General Medical Council should, so far as may be possible, require that Examinations recognized in lieu of the College Examinations should be held at such times and places as may best suit the convenience of Candidates who desire to enter the Medical Profession.

The Committee, with regard to the second question, recommend to the Council the following resolutions for adoption, viz.:—

(*a*) That a certificate of registration by the General Medical Council shall entitle a Candidate to commence his professional education, whether for the Membership or Fellowship of the College, at any time after the date of such registration.

(*b*) That the Council reserve to themselves the right of determining the conditions of admission to Examination for the Diploma of the College in the case of any Colonial, Indian, or Foreign Student not registered by the General Medical Council.

(*c*) That, in future, Candidates for the Diploma of Fellow be not required to undergo any Preliminary Examination beyond that required for the Diploma of Member of the College.

(*d*) And that the Regulations for obtaining the Diplomas of Member and Fellow of the College be altered in accordance with the foregoing resolutions.

JAMES PAGET,
Chairman.

January 10th, 1881.

At the Ordinary Meeting of the Council on the 10th of March, 1881, the following Final Report from the Committee on Preliminary Examinations was approved, adopted, and directed to be entered on the Minutes, viz.:—

Final Report, dated the 31st of January, 1881, of the Committee on Preliminary Examinations.

Members of the Committee.

Sir James Paget, Bart., *Chairman.*
Dr. Humphry. Mr. Marshall. Mr. Savory. Mr. Gay.
The President.
The Vice-Presidents.

The Committee, having presented to the Council their First Report dated the 10th instant, embracing the first two questions referred to them, and having considered the following remaining question, viz.—

> The answers to be given to the inquiries contained in Dr. Haldane's communication of the 11th of November, 1880, with respect to the desirability of Candidates for the Medical Profession being required, before they enter on the purely Medical Curriculum, to have been instructed and examined in the rudiments of Natural Science—*Physical, Chemical, and Biological*;

met on this date, and have adopted the following Final Report to the Council on this question:—

The Committee have considered seriatim the five questions proposed in Dr. Haldane's letter, viz.—

> (1) What amount of knowledge of the *Rudiments of Natural Science* might be fairly required from intending Candidates for the Medical Profession?
> (2) Should Candidates, before being admitted to Examination, be required to adduce evidence of having been specially instructed in Natural Science; or should proficiency as ascertained by Examination be considered sufficient?
> (3) At what period should the Preliminary Scientific Examination be passed? Should it take place before the commencement of the purely Medical Curriculum, or before the end of the first year thereof?
> (4) If a Candidate have taken up a department of Natural Science as an optional subject at the Preliminary General Examination, should the fact of his having passed in it satisfactorily exempt him from appearing for examination in the same subject at the Preliminary Scientific Examination?
> (5) In the case of Candidates who have passed the Preliminary Scientific Examination, what modifications could be made in the present Medical Curriculum and present Professional Examinations?

and recommend to the Council that the following answer should be returned to questions 1, 3, 4, and 5, viz.:—

> That, in the opinion of the Council it is desirable that intending Medical Students should be encouraged to study in one or more of the branches of Natural Science which are not included in the Compulsory Subjects of the Preliminary Examination required by the General Medical Council; and that a Student who shall have passed an examination in one or more of such subjects should be exempted from any attendance on Lectures [on the subject or subjects in which he shall have passed] and from similar Examinations on those subjects during his Professional Education; but that such exemption should

not include the Practical Instruction and Examinations now required by any of the several Medical Authorities.

And that to question 2 the following answer should be returned, viz.:—

That, in the opinion of the Council, proficiency as ascertained by Examination should be deemed sufficient.

JAMES PAGET,
January 31st, 1881. *Chairman.*

At this Meeting it was resolved to give a Conversazione at the College in August to the Members of the International Medical Congress; and it was at the same time referred to the President and Vice-Presidents to consider and report to the Council on certain changes proposed in the Erasmus-Wilson Trust.

The Committee report that, having further considered the question of the institution of additional Examinations for the Membership and Fellowship of the College, they recommend the following Resolutions for adoption by the Council, viz.:—

1. That it is not at present desirable that Examinations in Chemistry, Materia Medica, Medical Botany, and Pharmacy be instituted at the College.

2. That the extended Examination in Medicine, as proposed in the Second Report of the Committee, and approved by the Council on the 13th of January last, do come into force from and after the 1st of January, 1882.

3. That the four Examiners in Medicine be chosen from the Fellows of the Royal College of Physicians, and be elected at the Quarterly Council in July.

4. That the two Examiners in Midwifery be chosen either from the Fellows of the College or from the Fellows of the Royal College of Physicians, and be elected at the Quarterly Council in July.

5. That the Examiners in Medicine and in Midwifery be elected by the Council after nomination by a Committee.

6. That the Examiners in Medicine and in Midwifery be paid for their services by a Capitation Fee, and that the amount of such Fee be hereafter determined by the Council.

7. That it be referred to this Committee to confer with the Examiners in Medicine and in Midwifery, and, after discussion with them, to determine the nature and extent of the Examinations in Medicine and Midwifery respectively.

8. That it be at the same time referred to this Committee, after such conference with the Examiners, to advise the Council as to the amount of the Capitation Fee to be paid to the Examiners in Medicine and in Midwifery respectively.

The Committee have also to recommend to the Council the adoption of the following Resolution :—

That a Committee of seven Members of the Council, to be called the 'Nomination Committee,' be appointed to nominate Candidates for the several Examinerships of the College, excepting Candidates for the Court of Examiners and for the Court of Examiners' section of the Dental Board, subject to such Rules and Regulations as the Council may hereafter enact.

The Committee again reserve to a future Report the result of their deliberations with respect to the curricula of Professional Education of this College as compared with those of other Institutions.

17*th March*, 1881.

At the Ordinary Meeting of the Council on the 12th of May, 1881, the following letter, dated the 6th of May, from Sir James Paget, Bart., reporting, as Representative of the College, the proceedings of the General Medical Council, and, in anticipation of the expiration, in July next, of his term of office as Representative of the College in that Council, resigning his appointment as such Representative, was read and directed to be entered on the Minutes, viz. :—

"1 Harewood Place, Hanover Square, W.
"May 6, 1881.

"MY DEAR PRESIDENT,

"Since my last report the General Medical Council has held two meetings, the first in February, the second at the end of April 1881.

"The first of these Meetings was wholly occupied with Dental business, chiefly with questions relating to the registration of dentists. Under legal advice the Medical Council decided that all persons who, at the passing of the Dentists' Act, were engaged *bonâ fide* in the practice of Dentistry, in whatever manner, should be registered without mention of their being at the same time occupied in Medicine, Surgery or Pharmacy. By this decision and by that, also given under legal advice, by the Medical Council in their previous meeting, against the registration of any other than Dental Qualification in the 'Dentists' Register,' the Fellows and Members of our College who practice as Dentists were debarred from entering in that register their surgical qualifications. Many of them, therefore, joined in representing this to the Medical Council as a wrong done to them ; and at the recent meeting it was resolved—

"'That every registered Dentist holding any of the Surgical qualifications recited in Schedule A of the *Medical Act* shall be entitled to have such Qualification or Qualifications recorded on the 'Dentists' Register' as evidence of the possession of a higher degree of knowledge.'

"In its last Meeting the Medical Council considered many subjects relating to the preliminary education of persons intending to study medicine. Among these was the communication addressed from the Council of the College in which, after notifying its intention to discontinue the preliminary examinations held under its directions by the College of Preceptors, it 'intimated that the giving up of the College Preliminary Examinations renders it in the highest degree desirable that the General Medical Council should, as far as may be possible, require that Examinations recognized in lieu of the College Examinations should be held at such times and places as may best suit the convenience of Candidates who desire to enter the Medical Profession.'

"In compliance with this intimation, and after the reading of letters and a scheme for examinations sent in by the College of Preceptors, the Medical Council resolved, in accordance with the recommendation of its Executive Committee,

"'That the Executive Committee be requested to communicate with the Universities of the United Kingdom, and with the College of Preceptors, with a view to promote that such of their Examinations as most nearly correspond to the minimum requirements of the Medical Council in respect of Preliminary Education, and are open to all classes of candidates, should be held, or in part held, at times which may be generally convenient to Medical Students intending to enter on their Professional curriculum in the Winter or Summer sessions.'

"The effect of this resolution will be, I do not doubt, that the wish of our Council will be completely fulfilled.

"It will be in the recollection of the Council that, when it determined that the preliminary examinations held under its authority should be discontinued, it resolved to retain the right of making certain exceptions from the rules concerning preliminary examinations and registration in favour of some of the Indian, Colonial, and Foreign Candidates for the diplomas of the College. The necessity of making similar exceptions was admitted by the Medical Council, and rules were agreed to similar to those on which, in such cases, our Council has acted. To these rules was appended a resolution, "That the several Licensing Bodies be requested to communicate to the Council annually" in January a statement of the exceptions to the rules admitted by them.

"In reply to questions submitted to them by the Medical Council, nearly all the Licensing Authorities had sent in reports on the suggested institution of a Preliminary Scientific Examination, either separately or as a part of the examination in general education. These reports indicate a nearly unanimous opinion that such an examination in the Rudiments of the Natural Sciences—Physical, Chemical, and Biological—is very desirable; but they differ greatly in respect to the methods of examination. The Medical Council therefore adopted the following resolution, which will, in due time, be communicated to the College, and to which I do not doubt that our Council will give full consideration, namely:—

"'That it be recommended to the several Licensing Authorities under the

Medical Act, to consider whether they can separately or conjointly take steps to promote the establishment of a Preliminary Scientific Examination, and to require of all Candidates for their respective Licences that, after passing the Preliminary Examination in General Education, and either before commencing the purely Medical Curriculum, or at latest before the end of the first year thereof, they shall pass such a Preliminary Scientific Examination as is proposed.'

"The period of five years for which the Council did me the honour of electing me to be the representative of the College in the Medical Council will close in July. I take, therefore, this occasion for expressing my sincere thanks for the honour I have enjoyed, and of announcing to the Council my wish that I should not be re-elected. I feel sure that the duties of the office may be better done by one more actively or more recently than myself engaged in medical education.

"I am, my dear President,

"Very truly yours,

"*J. E. Erichsen, Esq., F.R.S., President of the*
"*Royal College of Surgeons of England.*"

"JAMES PAGET."

The resignation of Sir James Paget, Bart., as Representative of the College in the General Medical Council was accepted, and the best thanks of the Council were voted to him for his very efficient services as such Representative.

Report, dated the 30th of May, 1881, from the President and Vice-Presidents, on the Erasmus Wilson Fund.

In pursuance of the resolution of the Council of the 10th of March, 1881, the President and Vice-Presidents have to report to the Council that they have taken into consideration the changes proposed in the Erasmus Wilson Trust, so as to provide that the proceeds of the Fund shall be more advantageously employed than at present, by appropriating them, in such proportion as the Council may from time to time determine, in part towards the payment of the salary of a Pathological Curator of the Museum and in part for the payment of Lectures or Demonstrations on the Pathological Contents of the Museum, to be given either by the Pathological Curator or some other person duly appointed for the purpose; that they have consulted the legal adviser of the College on the subject, and, in accordance with his opinion, have instructed him to prepare a new Deed, setting forth the objects of the trust in its altered conditions, releasing the existing Trustees from their obligations under the

9th June, 1881.

THE MUSEUM.

The Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils:—	
Vertebrate	1215

Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
Microscopic preparations	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held four meetings during the past year.

A summary of the progress made in the preservation, arrangement and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 5th, 1881.)

Pathological Collection.

The additions to this department are unusually large. They include a series of preparations presented by Mr. S. G. Shattock, showing the repair of wounds, cicatrization after the fall of the petiole, the union of grafts, and other processes observed in vegetables. To M. Parrot, Drs. Barlow and Herman, and Mr. R. W. Parker we are indebted for a number of specimens illustrating the pathology of rickets, infantile syphilis, and combined or allied forms of these diseases in fœtal life and in childhood, which have been the subjects of papers published in the 'Proceedings of the Pathological Society of London' and elsewhere. Sir Joseph Fayrer has contributed several valuable specimens of dysenteric intestines and abscess of the liver; and the staff of the Samaritan Hospital and other gentlemen have presented some interesting examples of diseases of the female organs, including a series demonstrating the twisting of ovarian pedicles and the pathological effects of that lesion.

The new Catalogue by Sir James Paget, Dr. Goodhart, and Mr. Doran has been steadily progressing, and it is expected that the work will be ready for press before the end of the year.

A contemplated change in the Museum Staff will, it is hoped, lead to the further development of this department of the Museum.

I may refer to the Report of the year 1871 for the reasons for the rearrangement then made in the duties of the Museum Assistants. It was there stated that experience in the working of the Museum had long shown that the range of subjects embraced by the various collections united within our building was far too great to permit of any one individual undertaking to keep the whole up to the existing state of knowledge in each department. Pathology, especially, cannot be cultivated successfully by any one who has to devote the whole of his time to the

business of the Institution, and is precluded by the conditions of his appointment from ever seeing living patients or recent post-mortem examinations, and on whom it is, moreover, incumbent to possess a considerable acquaintance with comparative and general anatomy in order to maintain the scientific reputation which the collections for which he is responsible have justly acquired under the care of his predecessors. In former times, whenever any special work was required in the pathological departments, as in the formation of a new catalogue, it had always been necessary to obtain assistance from highly qualified persons outside the College establishment. Recognizing the supreme importance to this Museum that its Pathological Collections should be kept up in the best manner, and that every specimen sent to it should be examined and described according to the most recent phases of knowledge of the subject, it was then determined, for the first time in the history of the Museum, to appoint permanently upon the staff a gentleman devoting himself especially to Surgical Pathology, whose hours of attendance could be so arranged as not to interfere with Hospital studies carried on simultaneously, or with some cultivation of the more practical part of the profession.

No one who has watched the progress of the Museum since this arrangement was carried out can have any doubt of its success. The additions to their department during the time in which the Pathological Assistantship was held, for six years by Dr. Goodhart, and for four years by Mr. Doran, have been numerous and valuable, and the general condition of the collection has been greatly improved. The good result of this experiment has led to the consideration as to whether it could not be extended; and an opportunity of doing this has been afforded by the concurrence of Mr. Erasmus Wilson in the wish of the Council to devote the proceeds of the £5,000, which some years ago he liberally presented to the College, towards the payment of an officer who should be able to give still more time and attention to the service of this part of the Museum, than could be expected upon the very limited honorarium hitherto attached to the office, and who might also, if properly qualified, undertake the duty of giving lectures or demonstrations upon the pathological contents of the Museum, with a view to making them better known to the profession.

Mr. Doran, who has served the College zealously since 1873, first as Anatomical, and subsequently as Pathological Assistant, being, owing to the pressure of other engagements, unable to undertake the duties of the office as remodelled, has resigned his appointment, and the Council will shortly proceed to the appointment of a "Pathological Curator" and "Erasmus Wilson Lecturer," who shall, under the general direction of the Conservator, execute such functions in connection with the pathological department of the Museum as shall be intrusted to him, subject to the approval of the Museum Committee.

In announcing the termination of Mr. Doran's connection with the Museum as one of its permanent staff, I cannot help referring once more

(see Reports of 1875 and 1876) to the formation and arrangement, carried out by him, of the comparative series of small bones of the ear, which is one of the most interesting and instructive additions made to the Museum in late years, and in which he leaves behind an enduring evidence of his industry and perseverance.

Normal Anatomy and Physiology.

Numerous specimens have been added to this series, many of great interest. The additions in human anatomy comprise a preparation showing the muscles of the abdominal wall, which required great skill and care in dissection; and one, of the vessels of the female pelvis. In comparative anatomy are many preparations, including almost every part of its structure, from a Manatee, which had lived for nearly seventeen months in the Brighton Aquarium, and the body of which was, upon its death in February last, presented to the Museum by the Directors. The larger number of the other specimens of this series have been presented by the Zoological Society.

Mr. S. G. Shattock has continued his valuable aid in preparing a series of human bones on which the attachments of the various muscles are neatly delineated. The three additions which he has made, during the past year, of the sternum, the foot, and the pelvis, nearly complete the series.

Osteological Collection.

The circumstances under which the Barnard Davis collection was acquired were fully detailed in the last Report. It was stated then that, although all the specimens were carefully authenticated and described in the '*Thesaurus Craniorum*,' they would require cleaning, re-numbering and arranging according to the system adopted in the Museum Catalogue, before they could be made available for examination. This has been completed during the past year; and any one who has compared the condition of the collection when it came into our hands and its present state must be satisfied that the labour expended upon it has been well bestowed. Although all the materials of the collection were present, it was practically almost useless, owing to the singularly inconvenient method of arrangement of the 'Thesaurus,' in which the original running numbers, indicating only the order in which the specimens came into Dr. Davis's possession, were retained, which and the fact that the numbers were marked only in very small figures in ink upon the side of the cranium, quite invisible in the ordinary position in which the skulls are placed in the cases, and in many instances becoming almost illegible, rendered an entire fresh numbering indispensable, and a rearrangement of the Catalogue. In doing this the specimens described in the supplement have been incorporated in their proper place with those of the original work. Copies of the Catalogue thus rearranged, and with margin for additional observations or measurements,

have been prepared; and the new numbers have been painted in bold red figures upon the frontal region of every skull, where it can be distinctly seen in the case. This colour has been chosen to distinguish them from the specimens of the College collection, from which they will, at all events, unless a new general catalogue should ever be made, be thus kept distinct, although arranged with them in the cases under the same system of classification.

The varnish, as well as the dust, with which nearly all the skulls were covered, has been carefully cleaned off. The lower jaws, which in many cases had become transposed, have been adjusted to their respective crania, and instead of being tied on with string as formerly, have been attached by spring wires, easily removed when required.

The skeletons have all been partially rearticulated and placed upon stands, according to the method adopted in the College collection. The casts, or such of them as appeared worth keeping, have all been painted afresh. The collection is now permanently placed in thorough working order, and its value is thus altogether of a different character from that which it possessed when it came into possession of the College.

The alterations in the cases mentioned in the last Report have given full room for the preservation, if not the display, of this great addition to the collection. It is true that the specimens are in some parts rather crowded, but nevertheless they are perfectly accessible whenever required for examination, which is all that is really needed, as such specimens, like books in a library, can afford little information to casual spectators who only look at them through the glass, but must be taken out of the cases for the purpose of study.

The thorough examination of the collection has satisfactorily shown that its value was never over-estimated, and that its acquisition and preservation in such a Museum as ours is a solid and permanent increase to the scientific wealth of the country, for even if the methods of investigation now used are superseded by others, and the present descriptive catalogues come to be looked upon as obsolete, the specimens will always remain as materials for building up the history of the human race. As the interest in the subject increases, many of these evidences of the physical structure of people passed or passing away will come to be objects of priceless value.

In consequence of the Articulator's time having been almost wholly occupied, as above mentioned, upon the Barnard Davis collection, the usual number of additions to the series of mounted skeletons cannot be shown this year; but attention may be called to a very fine specimen of a Sea-Lion (*Otaria jubata*), obtained for the Museum by Mr. F. Coleman, Secretary of the Falkland Islands Company, who on previous occasions has presented many valuable specimens. It was at this gentleman's kind suggestion that Mr. H. Mansel has given a skull of the great Elephant-Seal (*Macrorhinus leoninus*), considerably larger than any existing in the other museums in Europe *.

* This specimen is the subject of a memoir read at the Zoological Society in January last, and published in the 'Proceedings.'

To the series of human osteology, Mr. W. R. Kynsey, Principal Civil Medical Officer and Inspector-General of Hospitals in Ceylon, has contributed a valuable collection of skulls and skeletons of the Veddahs, or aboriginal inhabitants of that island, and promises shortly corresponding specimens of the Cingalese.

Dr. J. Shortt, Deputy Surgeon-General, has continued his donations of crania of the inhabitants of Central and Southern India; and Surgeon-Major J. Coull Mackenzie has sent two complete skeletons, and four others are now on their way from the same source. Other donors' names (among whom is that of our old benefactor, Dr. George Bennett) appear in the list. A large collection of Egyptian skulls, about 100 in number, has just been received from Captain R. Burton, Her Majesty's Consul at Trieste, but they did not arrive in time to be catalogued on the present occasion.

Before concluding the Report, I may notice the fact that Art students, both male and female, avail themselves of the Museum in constantly increasing numbers, as in the numerous articulated skeletons and dissected preparations of muscles they find here facilities for their studies which they can obtain nowhere else in London.

THE LIBRARY.

The formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 485 volumes, including 137 new works and 162 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 38,153 volumes, comprising 15,019 works, and 39,183 tracts, pamphlets, essays, reports, and theses.
